To all Club Workshop Members, Customers and Friends,

It is with deep emotion that I am letting you know that Club Workshop will be closing its doors. After nearly 6 years, we have decided that the financials do not support us staying in business. This decision is a very difficult one both personally and professionally but this is the right decision for the business, for my health, and for my family.

The shop will close on June 23rd, with an auction of all the tools and equipment scheduled for July 1st. Details of the Auction are below.

So many of you have made this a true community. A number of small businesses and artists have used the shop to launch their products and there are countless number of networks and connections of people helping one another because of Club Workshop.

This all made this journey worth it!

Steve.
